Note 1: The Desktop Agent will install and run on 64-bit platform in 32-bit compatibility mode.

Note 2: 64-bit DLO Agent is installed on 64-bit Windows desktops, if and only if the Agent's machine's default mail client is 64-bit Microsoft Outlook. In all other cases, the Desktop Agent will install and run on 64-bit platform in 32-bit compatibility mode.

Note 3: The default installation path of the Agent during installation in 64-bit machines remains *C:\Program Files (x86)\Veritas\Veritas DLO\DLO* irrespective of 32-bit or 64-bit DLO Agent being installed. Users can install the DLO Agent to other folders of their choice by changing the path during installation.

Note 4: Veritas DLO 9.2 Agents are not supported on Windows RT.

Note 5: The DLO Desktop Agent is not supported on Microsoft Server Operating Systems.
